PROFESSIONAL SUMMARY

.NET Software Developer with internship experience at Prix Corporation, building web applications using C#, .NET 10, ASP.NET Core Web API, Entity Framework Core, MS SQL Server, and React.js. Experienced in developing backend modules for product catalog management, employee records, automated payroll calculation, and server-side PDF/Excel reporting. Built 12+ REST APIs following Clean Architecture principles, optimized SQL Server queries to improve execution time by 30%, and created reusable React components that reduced frontend setup time by 35%.

TECHNICAL SKILLS

Core .NET & Backend: C#, .NET 10, ASP.NET Core, RESTful Web APIs, Entity Framework Core (EF Core), LINQ, Dependency Injection, Clean & Layered Architecture

Databases & SQL: MS SQL Server, Complex SQL Queries & Joins, Indexing & Query Optimization, Relational Schema Design (DBMS), ACID Transactions, PostgreSQL, MongoDB

Enterprise & Security: PDF & Excel Report Generation, Payroll & Business Rule Engines, JWT, OAuth, Role-Based Authorization, API Validation, AES-256-GCM

Frontend Integration: React.js (React 19), TypeScript, JavaScript (ES6+), Next.js, Tailwind CSS, Bootstrap, AG Grid, HTML5, CSS3

Engineering & Tools: Object-Oriented Programming (OOP), SOLID Principles, Data Structures & Algorithms (DSA), Git, GitHub, Postman, Agile Scrum, SDLC

PROFESSIONAL EXPERIENCE

Software Developer Intern (.NET & React) | Prix Corporation — Baramati, Maharashtra (Mar 2026 – Sep 2026)

- Developed 12+ RESTful Web APIs using C#, .NET 10, ASP.NET Core, and Entity Framework Core following Clean and Layered Architecture patterns.
- Built core backend modules for product catalog, employee tracking, and automated payroll processing to handle attendance, deductions, and monthly salary calculations.
- Implemented server-side PDF and Excel export utilities for generating financial ledgers, payroll slips, and inventory status reports.
- Refactored MS SQL Server queries, joins, and indexes, applying EF Core optimizations like AsNoTracking() for read-heavy operations to reduce query latency by 30%.
- Created modular React.js and TypeScript components connected to .NET 10 APIs, reducing UI development time for new screens by 35%.

PROJECTS

Axentra ERP — Transactional Manufacturing & Accounting ERP | React 19, REST APIs, Node.js, MongoDB (ACID Transactions), AG Grid, Zod

- Developed a full-stack ERP web application to track manufacturing workflows, inventory levels, invoicing, party ledgers, cash books, and employee wages.
- Configured multi-entity database transactions in MongoDB to ensure consistency across billing, wage entries, payments, and stock updates.
- Integrated AG Grid for data-heavy tables and Recharts for visual financial summaries, using Zod schemas for request validation.

HireLink — Distributed Technical Video Interview & Code Execution System | React.js, REST APIs, Node.js, MongoDB, Stream API, Piston API, Inngest

- Implemented backend session handling, role-based authorization, and asynchronous job processing using Inngest for live coding interviews.
- Integrated Piston API for isolated multi-language code compilation (C#, C++, Java, JS) and Stream API for low-latency video communication.

Nexora.AI — Multi-Model AI Platform | Next.js 16, TypeScript, REST APIs, NextAuth.js, MongoDB, Zod

- Built API routes featuring AES-256-GCM encryption for stored API keys, OAuth authentication via NextAuth.js, and document handling utilities.

EDUCATION

- Master of Computer Science (M.Sc. CS) — Tuljaram Chaturchand College, Baramati (June 2026 – Present)
- Bachelor of Computer Science (B.Sc. CS) — Vidya Pratishthan's ASC College, Baramati (June 2023 – July 2026) | CGPA: 8.55/10

CERTIFICATIONS & ACHIEVEMENTS

- 1st Rank (2x Winner) — Top Coder Competition: Ranked 1st among 200+ coders in SY (Sep 2024) & TY (Mar 2026) at Vidya Pratishthan College; 2nd Rank at National-Level Techno-Spirit 2026.
- Certified Backend Developer — FunctionUp: Intensive backend training covering Node.js, Express.js, MongoDB, and REST APIs.
