Technical Skills:

Operating System	Windows
Version Control	GIT
Full Stack Development	HTML, CSS, React, JavaScript, Nodejs, Express, MongoDB
Familiar with	C, C++, JAVA, JavaScript, MongoDB, PSQL,
Working Software	Visual Studio Code, Eclipse

Projects Undertaken:

Practice Project 1: FunctionUp Bootcamp Noida, Uttar Pradesh

Project Name: Product-Management ([GitHub](#))

Duration: 20 days.

Role: Backend Developer.

Technology used: JavaScript, Node.js, Express and MongoDB.

Description: I developed the backend in the shopping website by using node.js, Express, and JWT for authentication & authorization. And used AWS S3 for storing images & Bcrypt for hashing passwords.

Practice Project 2: FunctionUp Bootcamp Noida, Uttar Pradesh

Project Name: URL – Shortener ([GitHub](#))

Duration: 14 days.

Role: Backend Developer.

Technology used: JavaScript, Node.js, Express and MongoDB.

Description: I developed the backend of website like Bitly, TinyURL, which shortens a long URL using shortId npm package. And used Redis for caching URLs to improve performance.

Practice Project 3: FunctionUp Bootcamp Noida, Uttar Pradesh

Project Name: Book-Management ([GitHub](#))

Duration: 20 days.

Role: Backend Developer.

Technology used: JavaScript, Node.js, Express and MongoDB.

Description: I developed the backend of a website like Amazon, Whichbook, and BooksWgagon where users can register, publish books, and give ratings to each book by using node.js, express, AWS S3 and JWT. In this project you can find book by various types such as book name, author name, ISBN number, by ratings.

Practice Project 4: FunctionUp Bootcamp Noida, Uttar Pradesh

Project Name: Internship Website ([GitHub](#))

Duration: 1 month.

Role: Backend Developer.

Technology used: JavaScript, Node.js, Express and MongoDB.

Description: A website that registers colleges and colleges under students they are looking for internships then if company want top rated college student, then they can easily search by college name. in this project I am trying to show total list of internships, total student, total colleges and give userId and password when they register. Used node.js, express and JWT for authentication & authorization, and AWS S3 service for storing images.

Certifications:

JavaScript, Node.js and MongoDB (web Developer) Certification in FunctionUp Noida, Uttar Pradesh

JavaScript Online Certification Solo learn.

Front End Development - HTML Online Certification Solo learn.

Achievements

- I have participated in coding contests of CodeChef where my highest rating is **1246** which rating among the top site for competitive programmers. And my current rating is **1400+** and rated **2***.
- I have solved more than **250+** problems on LeetCode, CodeChef, CodeStudio.
- Backend developer certificate from FunctionUp.
